

Appendix C: TODO

This is a list of TODO items for this current release of the book. Hopefully in the future these issues will be resolved.

The following writings need to be fleshed out at least to the point of adding to the main part of the book. Until they get to readability, do not include them:

Foreword, Lev Manovich - [forthcoming for VERSION 3 hopefully]

Pick Up A Shovel: Development and the Developer, Jon Phillips

Epilogue, Jon Phillips

Known Issues

Appendix B: “youSA”, Neil Stuber
